

Elevate

Elevate is a peer-to-peer (P2P) skill development club dedicated to empowering students to enhance their skills and knowledge in various domains. Our goal is to foster pi(π)-shaped learning, where individuals not only gain depth in one area but also develop cross-disciplinary skills to complement their expertise. By promoting a holistic approach to learning, we encourage students to explore diverse fields, fostering both technical proficiency and creative thinking, which are essential for success in today's dynamic world. Elevate is the platform where students learn, grow, and collaborate to shape their future.

Yearly Plans

- **Quiz Challenge - "Last Man Standing"**

Welcome to **"Last Man Standing,"** an intense quiz competition where teams of four face off against each other in a high-stakes battle for knowledge and survival. The twist? For every wrong answer, half of a team is randomly eliminated, adding an element of unpredictability to each round. Teams must work together and strategize carefully, deciding when to take risks or play it safe. The event ends with a dramatic "Last Man Standing" challenge, where the final competitors go head-to-head to determine both the winning team and the ultimate individual champion.

- **Generalized Hackathon - “GEN-A-THON 2.0”**

This hackathon is designed to challenge participants to think creatively and develop innovative solutions to given problem statements. The event encourages diverse approaches by allowing teams to use any technology or methodology (e.g., Web Development, AI/ML, etc.). The hackathon will involve multiple rounds of judging to ensure that only the most promising solutions advance, ultimately identifying the top three teams.

- **OPEN SOURCE CHALLENGE-“BUG BOUNTY BLITZ”**

An exciting two-day coding competition, where you team up in groups of three to resolve bugs in ten different repositories ranging from Beginner-friendly HTML/CSS to Pro-level Rails, and Rust. The competition spans 24 hours, with 8 repositories to conquer. Each repo offers a unique level of difficulty, and the more bugs you squash, the more points you get!

Other events

- **WINTERVIEW**

Elevate Club presents a series of workshops to prepare students for technical interviews, covering essential rules, soft skills, and resume building. Participants will benefit from personalized one-on-one mock interviews and valuable feedback to sharpen their technical knowledge and interview readiness. Get ready to make a lasting impression and land your dream role with Elevate!

- **CODESPRING**

Elevate proudly presents *CodeSpring: A 3-Day Technical Extravaganza* designed to ignite your passion for innovation! Dive into a whirlwind of cutting-edge technologies through thrilling events that challenge and sharpen your technical skills. Whether you're a coding enthusiast or a tech explorer, CodeSpring blends multiple disciplines into an unforgettable experience, pushing the boundaries of your technical prowess. Get ready to level up, compete, and collaborate in an event that celebrates the future of technology!
