

Probe

Whether you're a seasoned shutterbug or just discovering the magic of visual storytelling, our club is the perfect platform to explore, learn, and cultivate your love for media and photography. Let your imagination soar as we embark on a visual adventure together, embracing the power of images to communicate, inspire, and shape the narrative of our college experience. Let the shutter clicks begin, and let's create memories that last a lifetime! The club, under IIIT Nagpur's Students Affair Council, has over 15 members skilled in photography and media. It is divided into two sections: Media (focusing on words, graphics, and digital storytelling) and Photography/Videography (capturing moments through photos and videos).

The Club Coordinator/Head organizes events, manages purchases and finances, and ensures the club runs smoothly with guidance from senior members and the Faculty Advisor. This role is crucial for fostering unity and skill development among members.

The club holds annual interviews for new members, conducted by the club heads. Candidates are assessed on their media knowledge, narrative skills, and proficiency in photography.
