

Institute Gathering (IG - 2019) at IIT Nagpur

Report

“To succeed and enjoy life and to improvise yourself, you should be part of cocurricular activities”. Keeping this idea in mind, Indian Institute of Information Technology, Nagpur organized an Institute Gathering to motivate all its students towards keep their eye on their physical fitness so that the continuous study pattern should not make them dull and affect their creative thinking. **Dr. O. G. Kakde, Director, IIT Nagpur, Dr. Ashwin Kothari, Dean, Mr. Kailash Dakhale, In-charge Registrar, Dr. Tapan Jain and Dr. Kirti Dorshetwar, Student Affairs In-charges, IIT Nagpur have extended their full support for the event and even motivated students to participate in more such kinds of events for their all-round development.**

The Institute Gathering was organized on the 19th and 20th of Jan, 2019. Various indoor and outdoor sports events were organized. A competition between both branches, i.e. CSE and ECE, was carried out to find out the branch with most fit and pro-active students in the field of sports. More importantly, the emphasis was given towards team-work and participation. As correctly said by Tom Glazer that – “Participation is one of the best methods of educating”.

Participation involves knowing oneself, one’s strength and weakness. IG also focused on the team management and team spirit. It is important how one respects the team one works in and how he corporates and motivates other team members.

The sports events that were conducted were: -

1. Chess
2. Carrom
3. Shotput
4. Badminton
5. Athletics
6. Volleyball
7. Table Tennis
8. Futsal
9. BasketBall
10. Tug of War

In all the events, we witnessed a tough competition between all the students. Irrespective of the final result, students enjoyed the event a lot, especially, motivation their peers to increase their morale to win and supporting them even if they lost. With regards to participants, they showed true sportsmanship and learnt a lot of things like team-management, strategy planning and the fact that – **“It is not that you win always, you may sometimes lose, but you have to believe in yourself and convert your loss into win by working harder”.**
